“ We all have two lifes
and the second one start when we realize we only have one.
Live with both good and bad inside you because no one is perfect.
Always have positive mindset, put yourself in other’s situation
and not only thoughtful but also taking care of others.
Live like a Roly-Poly, does not matter how hard it get hitted,
it never fall down. Your life will be like a butterfly, it is a circle
of going from nothing
to one of the most beautiful creature in the world.”
